APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion , place of use of a portion of the waters of an underground source as heretofore granted under Permit 49199 is issued subject to the terms and conditions imposed in said Permit 49199 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 60209 and 60210 shall not exceed 371.314 acre-feet annually.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.4913 cubic feet per second , but not to exceed 371.314 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before March 15, 1995

Proof of completion of work shall be filed before April 15, 1995

Application of water to beneficial use shall be made on or before March 15, 1996

Proof of the application of water to beneficial use shall be filed on or before April 15, 1996

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed MAY 12 1995

Proof of beneficial use filed

Cultural map filed

Certificate No. Issued

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my  
office, this 8th day of February  
A.D. 19 95  
R. Michael Turnipseed P.E.  
State Engineer

Abrogated By Per 64027 1.4913

(PERMIT TERMS CONTINUED)

At least one ground water monitor well is to be installed within the place of use at a location satisfactory to the State Engineer. The monitor well must be suitably cased, perforated, sealed and capped and must penetrate at least 75 feet below the water table.

The issuance of this permit completely abrogates Permit 49199.

QUESTION 15.

The purpose of this application is to consolidate the water rights previously filed under 53095, 54458, 54693, 54721, and 55681 into one water right permit. This application and the application to change Permit 49237 being filed concurrently will cover the "Will Serve" letters previously sent for the Wildhorse Subdivision development. It is the intent of the applicant to file a letter withdrawing the aforementioned previously filed water rights when the notice is sent by the Division of Water Resources for permit fees for this new application.

Please use maps previously filed under Permit 53095 for the proposed Place of Use, Permit 31222 for the proposed Point of Diversion, and Permit 49199 for the existing Place of Use and existing Point of Diversion.
